ESCOLHA

1) Porque escolheu o Brasil para realizar intercâmbio?

Actually, we had the choice between Latino America or United States for our semester in exchange. By this time I was really more curious about Brasil because I never went to this country before (i already went to US). Despite the curious aspect, I think I wanted to initiate a real shock in me in a totally new environment.

2) O que influenciou na escolha da USP? E porque na ECA?

Before coming in brasil, i've heard a lot of good opinions about USP saying that this university is the best one in latino america. Moreover, I have chosen ECA for its large choice of discipline and its really nice ambient of work.

3) Como tomou conhecimento da possibilidade de intercâmbio na USP?

My main teacher here in France talked to me a lot about the opportunities of travelling and studying abroad. He really influenced me to travel until São Paulo to study there. He already knew the city and said to me that this experience in Brasil is really worth living.

IDIOMA

1) Você teve algum problema de adaptação com a língua portuguesa?

At the beginning, I got to say that my language level was really bad and I easily started to panic sometimes. But in a day after day experience, I guess you can get more confident with the portuguese and start to understand better.

2) Numa escala de 0 a 10, avalie o nível de conhecimento da língua portuguesa antes do intercâmbio:

()1 ()2 (V)3 ()4 ()5 ()6 ()7 ()8 ()9 ()10

E depois do intercâmbio:

CURSO

1) Disciplinas cursadas:

▪ Fotografia Digital
▪ Montagem e edição
▪ Direção Artística
▪ Computação Gráfica
▪ Prática Multimídia e Intermídia

2) Faça uma breve descrição dos programas das disciplinas cursadas, relatando quais foram as dificuldades/desafios enfrentados:

I am really satisfied with all the courses that the USP has offered to me. I don't think I have any bad experience to tell during my entire semester in Brasil. The only thing might be when I arrived, I was supposed to choose Master degree courses. This was what I actually did when arriving at the USP, I asked to subscribe to Master classes and I gently got rejected. I felt a little bit nervous because I was afraid to take classes that I already did in France (and this is what actually happened for my semester in Brasil). I don't know what to think now in retrospective because my semester was really fine even if I didn't strictly learn new things (except portuguese). The usp has offered me a really nice ambient and space for working and i'm really glad to have studied over there.

1) Numa escala de 0 a 10, avalie a qualidade das aulas cursadas na ECA. (0 ruim/10 excelente)

()1 ()2 ()3 ()4 ()5 ()6 ()7 (0)8 ()9 ()10

2) Houve alteração do plano de estudos original? Você conseguiu se matricular nas disciplinas que queria?

I changed my first learning agreement because I wanted to really see with my own eyes where to study and where to choose the courses. When you're abroad, it's really difficult and stressful to make those choices before arriving. This is what I did and i successfully subscribed to all the courses that I wanted.

3) A quantidade de disciplinas escolhidas foi adequada? Comente.

Yes, I succeed at managing my own schedule with 5 courses at the USP. I guess more than 5 courses would be a little bit more difficult.

4) O conteúdo das disciplinas correspondeu às suas expectativas? Por quê?

Yes, I was really satisfied with all the courses. I had strong expectations for the USP before coming in São Paulo (best university of latino america) and I got to say that all the class went really well. The quality of listening and the concern of teachers has been the real thing that I used to love at the USP.

5) Como foi a receptividade dos professores? Eram acessíveis fora das aulas? E quanto aos alunos?

The teachers were really nice to me knowing that I came from abroad. They were also really concerned and patient. They were also really accessible outside classes. The USP students were fine but the only thing was that I had to do the first step so we can talk to each other.

ESTRUTURA E ATENDIMENTO

1) Houve problemas em relação ao visto ou policia federal? Sim () Não ()

Se sim, informe quais problemas:

2) Em sua opinião, quais os pontos fortes e fracos no atendimento aos alunos estrangeiros no momento de sua chegada na USP?

Strongest Points: Good orientation / Serious / Nice

Weakest Points: Sometimes It would be good to have someone speaking in fluent english to clarify some situations.

4) Numa escala de 0 a 10, avalie as instalações físicas e serviços disponíveis para os alunos estrangeiros na ECA. (0 ruim/10 excelente)
